- c) Tips, testing and FAQ for doing “colors made easy”.
- d) Colors made easy for your salon to customize your clients palette.

3. Receive your certification for this wonderful color analysis system

Janet Spangler has been an Image Consultant for over 20 years. Janet’s clients include men and women of every profession imaginable: national politicians, Fortune 500 Company executives, pageant winners, stay at home moms. Her accomplishments are too numerous to mention, just know when you attend her class you will know your time was well spent. Kathy Martin is an example of what determination is. She has extensive teaching experience with an array of manufacturers, but she loves the idea of being able to teach what she knows as a haircolorist, not as a manufacturer. “As a haircolorist you must be aware of what is being taught and not fall victim to much of the nonsense being taught.” Her love of ABCH and what it does to spread quality education has caused her to embrace the idea of generic education. You’ll love her class.
